EDUCATION

New Millennium Academy, Pokhara— *SLC*

April 2003 - April 2016

I cleared my SLC with a good GPA from this school. This was where I started schooling till grade 10.

Shree Chhorepatan HSS, Chhorepatan— *+2 level*

July 2016 - July 2018

This was my high school where I completed my high school in Science stream. I preferred maths over biology at this level as I was aiming to move to the IT field.

Informatics College Pokhara, matepani— *Bachelors*

Nov 2018 - running (expected graduation year : 2021)

This is the college I am currently attending. I am doing Bachelors in Information Degree from this college. Learning in a college being run from an international University in Nepal is a great virtue for me.

SKILLS

— Java

— Python

— Flutter

— Android (Java)

— HTML & CSS

AWARDS

I have been taking part in a bunch of co curricular activities since my basic school times. I haven't secured awards from any of those but that won't make me down.

I believe in : "Taking part is the main thing win or lose is not important."

LANGUAGES

— Nepali

— English

— Hindi (fairly)

Library Management System — *Python*

This project was given to us in college as an assignment. A library management system was created using the CLI of Python SDK

Staff Hiring and Firing system — *Java*

This was a simple project for Rigo technology (a mythical company). This was a simple staff hiring and firing program made with java in Intellij

Kismis Brunch Garden — *Flutter (Dart)*

This was my first project in the real world. The task was to create a staticWebsite for a small startup restaurant. I used flutter to create the website for this business. This was my first client facing an individual project.

Personal Projects — *Web, Android, Linux*

As I have already mentioned I have been learning flutter for more than one and half years now, I have created a bunch of projects (not published till now though). I have learned flutter from the base to this level of creating apps and websites using flutter. I am in the process of creating another website for an agro farm in my town using flutter most probably. Similarly i have created a bunch of projects for learning flutter.
